

# SERIES MAY DEPEND ON THE INFILDEERS

AT TURNING POINT IN THE COMING WORLD'S SERIES.

## ATHLETICS HAVE ADVANTAGE

Connie Mack's \$100,000 Quartette Should Outplay the Inner Defense of the Giants.

NEW YORK, Oct. 3.—A well-known baseball club manager said recently that in his opinion more games were won and lost on the infield than in any other department of baseball. Few will contradict the assertion, and it is quite likely that victory will hang, to a considerable extent, upon the work of the Giants' and Athletics' infield during the coming world's series between the New York and Philadelphia clubs. The Athletics' \$100,000 infield is one that commands respect and admiration in baseball circles, but it isn't worrying the Giants, if their statements are to be believed. McGraw has not tried to put a financial figure on his four infielders, but he is known to be as well satisfied with his combination as a baseball manager can be.

Still the fact remains that all the figures available regarding the World's series of 1911 and season's play this year point to the Athletics' infield quartet composed of McInnes, Collins, Baker and Barry as superior to Merkle, Doyle, Herzog, Shafer and Fletcher, considered as a whole. In compensation which helped defeat the Giants two years ago McInnes had no part, being on the bench with an arm which was just gaining after being broken. Harry Davis, the veteran who took his place proved a most acceptable substitute, but with McInnes on the initial ban as he will be when the present series opens, the Athletics' infield is certain to be stronger than it was in 1911. Shafer has held down third for the Giants in place of Herzog most of the season, and will probably alternate with Herzog according to style of pitching to be faced. Aside from these shifts and substitutions the line-up will be the same as two years ago.

## ONLY USED FOUR BOTTLES

But These Were Enough to Prove The Merit of Cardui, The Woman's Tonic.

Cobden, Ill.—"Having used Cardui, the woman's tonic, in my family, for a number of years," writes Mrs. Kate Metz, of this town, "and always with such good results, I feel it my duty to write you about it, so that you may publish my letter."

"My mother is living with me, and she is 52 years old. For the last three or four years, she has been troubled a great deal with cramping spells, and all kinds of stomach troubles. For days at a time, she would have a severe headache.

"After reading the Ladies' Birthday Almanac and seeing how much Cardui has helped other women who were sick and ailing, she decided to give it a trial. So she got a bottle and began taking it, three times a day. Since then she has been getting along simply fine."

"Mother only used up four bottles of the Cardui, but she is no longer troubled with the severe headaches, and her stomach is so much stronger, that she can eat most anything. She is so glad for what Cardui did for her."

"We both feel that any lady who is not strong and well, would be greatly benefited by the use of Cardui."

Try Cardui for your troubles.

she faster in the baselines, but the Athletics still gets on more frequently due to his heavy hitting. As a center fielder his records show that he outfields both the Giants who will probably figure in the third base play.

The important position of shortstop in the infield series will be filled by Barry for the Athletics and Fletcher for the Giants. Barry outfielded and outpitched in the clash two years ago, but Fletcher has greatly improved since that time, while Barry has not done more than hold his own. This season the records of the two players show that in the respective baselines Barry has been hitting better than Fletcher. As a left fielder and center of the Giants' shortstop, he also had the edge of the Osceola Indians players. It would appear as though the Giants had an advantage here and close to an even basis in second base. At the two other bases the Athletics are the stronger.

## TWENTY ARRESTS FOR EACH POLICE OFFICER

SEPTEMBER A BUSY MONTH FOR GUARDIANS OF THE CITY'S PEACE.

Hunting a fugitive departmental officials of the city of Tulsa, Okla., found at the houses of the members of the mob that followed Kid Edward Gandy, a criminal.

During the month of September 26 arrests were made by the departmental police force, an average of practically three arrests a day, and each officer, excepting those resulting from the trials of men or remnants brought the total over for the month up to \$5,079.00. Totaling the monthly salary of \$1,037.00 from these collections leaves the department with a profit of \$4,042.00.

Of the 26 persons arrested, 328 were handled in the automobile garage which made 361 trips from the station in response to calls received at the station.

The prisoners for the month descended 3,224 miles, which at 15 cents each cost the city \$223.10. But this expense is offset with a profit in the activities of the chain gang. Three inmates and five prisoners of 1920 now on the road, working a total of 2,830 hours. This labor saves the city \$410 at the prevailing price of labor.

The report of Mrs. Justin Lusk, the city matron, shows that she has taken care of 1,000 women during the past month. Mrs. Lusk cares for recent-arrived female prisoners. In September, handled two cases in the juvenile court, restored and cared for four children aged for three, death rate fatalities sent three girls to the Mission of Redención Local and found employment for a number of women.

church. Most young people fall in the morbid and religious struggle because they are sadly in need of courage. It's an easy matter to stand in the firing line of battle and fight, fight, with the enemy before you, but it's a different proposition when your enemy comes in some subtle little to lower your standard, and there's no visible enemy to fight, says Rev. Teitelman. He'll talk about this Sunday night. The morning topic is "Prayer, Presence, Purse."
